	Getting drafted	You might get drafted into slave labor. It's not very likely (luckily).	N/A	
-	Food	Eat, or you die. (You don't need to drink). You don't need to eat very often.	N/A	
_	Starting a company is expensive.	Starting a company costs about \$40 in the currency (page 3)	Get cash (page 3)	

The Basics of Currency.

The basics of currency in the town are kind of simple;

These (above) are the 5 basic amounts. (Note: Due to the shortage of money in the town, items cost much less than in real life (I.E a car might cost 25).)

Gold (above) is the most common of the money, and its value is 1.

Blue Crystal is the second most common. It is worth 10.

Red crystal is the second rarest. Its value is 50.

Green crystals are more common. They are worth 100.

Orange crystals are the least common; (I have a total of 4). They are worth 1000.

Note (#2): the value is per stud. (I.E one stud of blue is worth 10, 2 studs of blue are worth 20. ETC)
